Uncollected Children Policy

On rare occasions, children are not collected from educational settings on time. These guidelines, developed in conjunction with Children's Social Care and the Police, are written to help staff respond sensitively and consistently to ensure the safety and welfare of such children.

1. Ensure that full contact information is received promptly from all parents & carers
2. Contact information must be regularly updated
3. Inform parents & carers that if a child is not collected from the setting by closing time, the non-collection procedure will be followed.

Non-collection of child:

If a child is not collected within 15 mins after home time, the following steps should be taken:

- Reasonable attempts should be made to contact:
 - Parents or carers at home or at work
 - Other adults authorised to collect the child from the setting
- The child should not leave the premises with anyone other than parents or nominated carers
- If no-one can be contacted to collect the child after say 4.30pm the relevant Children's Social Care Area Team or Police should be contacted.
- Children who are staying for after school clubs should be collected on time. If a parent is late picking up then the school can decide to stop the child attending club.
- The child should stay at the setting in the care of two fully-vetted staff members until safely collected either by the parents, a nominated carer, social worker or police officer
- Children's Social Care will assess the child's situation & find appropriate and safe alternative accommodation if needed
- Under no circumstances should staff attempt to look for the parent, nor should they take the child home with them
- A full written report of the incident must be recorded on CPOMS

In case of emergency, contact the police on 999
